Telling the Truth About Damned Lies and Statistics

Telling the Truth About Damned Lies and Statistics By JOEL BEST The dissertation prospectus began by quoting a statistic -- a "grabber" meant to capture the reader's attention The graduate student who wrote this prospectus undoubtedly wanted to seem scholarly to the professors who would read it; they would be supervising the proposed research

Damned Lies and Statistics R

but liars do figure? Joel Best, the author of DamnedLiesandStatistics:UntanglingNum-bers from the Media, Politicians and Activists(University of California Press), would probably not be so kind to the figures Indeed, Best, who teaches sociology and crimi-nal justice at the University of Delaware, plainly spends a good portion of his time at

Lies, Damned Article Lies, and Statistics - JaymeSokolow.com

minister, once said there were three kinds of lies: "lies, damned lies, and statistics" There are actually countless forms of mathematical chicanery all around us, especially when we begin calculating the number of creative ways we use statistics to win arguments, sell products, or just plain bamboozle people The potential for abuse may

Review of Stat-Spotting: A Field Guide to Identifying ...

Among the many wonderful examples of questionable numbers found in Joel Best's new book, Stat-Spotting: A Field Guide to Identifying Dubious Data (University of California Press, 2008, \$19.95, 144 pages), the one that sticks most

How Statistics Can Lie - MSU Libraries

In his book titled Damned Lies and Statistics, author Joel Best describes four personalities in regard to how people cope with statistics The "Awestruck" understand very little about statistics, but that's of no real concern to them because statistics have magical powers, just like the products they use The "Naive" have a little more

Lies, Calculations and Constructions: Beyond 'How to Lie ...

Lies, Calculations and Constructions: Beyond How to Lie with Statistics Joel Best Abstract Darrell Huff's How to Lie with Statistics remains the best-known, nontechnical call for critical thinking about statistics However, drawing a distinction between statistics and lying ignores the process by which statistics are socially constructed
